**RE: Invitation for Public Comments on Proposal to Relocate/Renovate
WMGLD Buildings**

Dear WMGLD customer:

For the past several months, the Wakefield Municipal Gas & Light Department (WMGLD) has been researching several options regarding its facilities. The WMGLD currently operates in two locations: the business office at 9 and 11 Albion Street, built in 1923 as a Post Office and purchased by the WMGLD in 1943; and the Mark Delory Facility on North Avenue, built in 1951.

Both buildings are in need of significant and costly repairs and upgrades to bring them up to code and to address accessibility issues. As part of our due diligence, we have been investigating the costs and benefits of alternatives, including renovating both buildings, consolidating all operations at the North Ave. location, and relocating all operations to a new facility elsewhere in town.

At the request of the Board of Gas and Light Commissioners, we will hold an informational session in the Wakefield High School cafeteria on Wednesday, June 16, 2010 beginning at 7 p.m. We will review the alternatives under consideration, answer questions, and invite feedback from the public.

I hope to see you on June 16th.

Sincerely,

A handwritten signature in black ink that reads 'Peter D. Dion'. The signature is written in a cursive style with a large initial 'P'.

Peter Dion, General Manager
